the Science of the Total Environment

Subject index

Volume 169 (1995)

Activated charcoal sampling; Monocyclic aromatic hydrocarbon; Ambient air; Motor vehicle pollution **169**, 17

Africa; Tropical cities; Air pollution; High traffic density; Vehicles; CO; NO_x; Hydrocarbons; Particulate matter **169**, 25

Air pollutant emissions; Maritime traffic; Venice; Piombino; Fuel consumption; Gross tonnage **169**, 257

Air pollution; Africa; Tropical cities; High traffic density; Vehicles; CO; NO_x; Hydrocarbons; Particulate matter **169**, 25

Air pollution; Epidemiology; Motor vehicle traffic; Dispersion model; Exposure index **169**, 63

Air pollution; Motor vehicle; Sanitation plan **169**, 45

Air pollution; Road traffic; Odours; Respiratory illness; Behaviour; Land use **169**, 71

Air pollution; Transport policy; Road traffic assignment model; Air pollution dispersion model; Exhaust emissions; Chester, UK **169**, 265

Air pollution; Transport; Emission; Solution; Transport mode **169**, 1

Air pollution dispersion model; Air pollution; Transport policy; Road traffic assignment model; Exhaust emissions; Chester, UK **169**, 265

Air pollution monitoring; Inner city; Street canyon; North Rhine-Westphalia; Nitrogen dioxide; Benzeue; Soot **169**, 7

Air pollution, vehicle-derived; Road traffic pollution; Vehicle emissions; Noise pollution **169**, 75

Air traffic pollution; ATEMIS; Austria **169**, 241

Ambient air; Monocyclic aromatic hydrocarbon; Motor vehicle pollution; Activated charcoal sampling **169**, 17

Ambient ozone; Nitric oxides; Turbulence fluctuations; Neutral boundary layer; Reaction rates; Motorway **169**, 83

Ambient temperature; Cold climate; Catalytic convertor; FTP and ECE test cycle responses; Automotive exhaust emissions **169**, 195

ATEMIS; Air traffic pollution; Austria **169**, 241

Austria; ATEMIS; Air traffic pollution **169**, 241

Automotive exhaust emissions; Ambient temperature; Cold climate; Catalytic convertor; FTP and ECE test cycle responses **169**, 195

Baltic states; Traffic emissions; Russia; Transport network; Vehicle stock **169**, 219

Behaviour; Air pollution; Road traffic; Odours; Respiratory illness; Land use **169**, 71

Benzeue; Air pollution monitoring; Inner city; Street canyon; North Rhine-Westphalia; Nitrogen dioxide; Soot **169**, 7

Catalyst cars; Vehicle pollutant emissions; Chassis dynamometer data; Non-catalyst cars **169**, 157

Catalytic convertor; Ambient temperature; Cold climate; FTP and ECE test cycle responses; Automotive exhaust emissions **169**, 195

Catalytic convertor; Cold vehicles; Petrol-driven car; Emissions **169**, 113

Catalytic convertor; Driving patterns; Petrol passenger car; Emissions; Speed fluctuations **169**, 129

Catalytic convertors; Driving patterns; Cold start emissions; Travel speed; Road type; Petrol-powered passenger cars **169**, 123

Chassis dynamometer; Exhaust emission factor; Heavy duty vehicle; Exhaust gas emission; Fuel consumption **169**, 213

Chassis dynamometer data; Vehicle pollutant emissions; Catalyst cars; Non-catalyst cars **169**, 157

Chester, UK; Air pollution; Transport policy; Road traffic assignment model; Air pollution dispersion model; Exhaust emissions **169**, 265

CO; Africa; Tropical cities; Air pollution; High traffic density; Vehicles; NO_x; Hydrocarbons; Particulate matter **169**, 25

CO; Road traffic; Emission factors; Light duty vehicles; Tunnel; NO_x; t-HC; Hydrocarbons **169**, 141

Cold climate; Ambient temperature; Catalytic convertor; FTP and ECE test cycle responses; Automotive exhaust emissions **169**, 195

Cold start; Passenger car; Emission; Engine temperature; Pollutant **169**, 185

Cold start emissions; Driving patterns; Travel speed; Road type; Petrol-powered passenger cars; Catalytic convertors **169**, 123

Cold vehicles; Catalytic convertor; Petrol-driven car; Emissions **169**, 113

Cryofocussing; Road traffic pollution; Extra-urban condition; Volatile organic compound; Population exposure **169**, 33

Diesel; Heavy traffic; Vehicle; Statistics; Weight; Horsepower; W.I.M. (weigh-in-motion) **169**, 103

Dispersion model; Epidemiology; Air pollution; Motor vehicle traffic; Exposure index **169**, 63

Dispersion modeling; Urban intersections; Vehicular pollutants **169**, 93

Driving patterns; Cold start emissions; Travel speed; Road type; Petrol-powered passenger cars; Catalytic convertors **169**, 123

Driving patterns; Petrol passenger car; Emissions; Speed fluctuations; Catalytic convertor **169**, 129

Duty vehicles; SIVA model; Unit emissions **169**, 205

Emission; Passenger car; Cold start; Engine temperature; Pollutant **169**, 185

Emission; Transport; Air pollution; Solution; Transport mode **169**, 1

Emission factors; Modal analysis; Light-duty vehicles **169**, 175

Emission factors; Off-road vehicles; Mobile machinery; On-road vehicles; Emissions into air; Legislation **169**, 249

Emission factors; Road traffic; Light duty vehicles; Tunnel; NO_x; CO; t-HC; Hydrocarbons **169**, 141

Emission inventories; Motor vehicles; Traffic emissions; Spatial and temporal allocation **169**, 231

Emissions; Cold vehicles; Catalytic convertor; Petrol-driven car **169**, 113

Emissions; Driving patterns; Petrol passenger car; Speed fluctuations; Catalytic convertor **169**, 129

Emissions into air; Off-road vehicles; Mobile machinery; On-road vehicles; Emission factors; Legislation **169**, 249

Engine temperature; Passenger car; Cold start; Emission; Pollutant **169**, 185

Epidemiology; Air pollution; Motor vehicle traffic; Dispersion model; Exposure index **169**, 63

Exhaust emission factor; Heavy duty vehicle; Chassis dynamometer; Exhaust gas emission; Fuel consumption **169**, 213

Exhaust emissions; Air pollution; Transport policy; Road traffic assignment model; Air pollution dispersion model; Chester, UK **169**, 265

Exhaust gas emission; Exhaust emission factor; Heavy duty vehicle; Chassis dynamometer; Fuel consumption **169**, 213

Exposure index; Epidemiology; Air pollution; Motor vehicle traffic; Dispersion model **169**, 63

Extra-urban condition; Road traffic pollution; Volatile organic compound; Cryofocussing; Population exposure **169**, 33

FTP and ECE test cycle responses; Ambient temperature; Cold climate; Catalytic convertor; Automotive exhaust emissions **169**, 195

Fuel composition; Volatile organic compounds; Gasoline; Vehicle emissions; Indoor/outdoor air **169**, 149

Fuel consumption; Air pollutant emissions; Maritime traffic; Venice; Piombino; Gross tonnage **169**, 257

Fuel consumption; Exhaust emission factor; Heavy duty vehicle; Chassis dynamometer; Exhaust gas emission **169**, 213

Gasoline; Volatile organic compounds; Fuel composition; Vehicle emissions; Indoor/outdoor air **169**, 149

Gross tonnage; Air pollutant emissions; Maritime traffic; Venice; Piombino; Fuel consumption **169**, 257

Heavy duty vehicle; Exhaust emission factor; Chassis dynamometer; Exhaust gas emission; Fuel consumption **169**, 213

Heavy traffic; Diesel; Vehicle; Statistics; Weight; Horsepower; W.I.M. (weigh-in-motion) **169**, 103

High traffic density; Africa; Tropical cities; Air pollution; Vehicles; CO; NO_x; Hydrocarbons; Particulate matter **169**, 25

Horsepower; Heavy traffic; Diesel; Vehicle; Statistics; Weight; W.I.M. (weigh-in-motion) **169**, 103

Hot passenger car emission; Modelling; Instantaneous speed and acceleration; Urban environment **169**, 167

Hydrocarbons; Africa; Tropical cities; Air pollution; High traffic density; Vehicles; CO; NO_x; Particulate matter **169**, 25

Hydrocarbons; Road traffic; Emission factors; Light duty vehicles; Tunnel; NO_x; CO; t-HC **169**, 141

Indoor/outdoor air; Volatile organic compounds; Fuel composition; Gasoline; Vehicle emissions **169**, 149

Inner city; Air pollution monitoring; Street canyon; North Rhine-Westphalia; Nitrogen dioxide; Benzeue; Soot **169**, 7

Instantaneous speed and acceleration; Hot passenger car emission; Modelling; Urban environment **169**, 167

Land use; Air pollution; Road traffic; Odours; Respiratory illness; Behaviour **169**, 71

Legislation; Off-road vehicles; Mobile machinery; On-road vehicles; Emission factors; Emissions into air **169**, 249

Light duty vehicles; Road traffic; Emission factors; Tunnel; NO_x; CO; t-HC; Hydrocarbons **169**, 141

Light-duty vehicles; Emission factors; Modal analysis **169**, 175

Maritime traffic; Air pollutant emissions; Venice; Piombino; Fuel consumption; Gross tonnage **169**, 257

Meterological parameters; Pollution episodes; Motor vehicle traffic; NO_x; Reduction in road traffic **169**, 53

Mobile machinery; Off-road vehicles; On-road vehicles; Emission factors; Emissions into air; Legislation **169**, 249

Modal analysis; Emission factors; Light-duty vehicles **169**, 175

Modelling; Hot passenger car emission; Instantaneous speed and acceleration; Urban environment **169**, 167

Monocyclic aromatic hydrocarbon; Ambient air; Motor vehicle pollution; Activated charcoal sampling **169**, 17

Motor vehicle; Air pollution; Sanitation plan **169**, 45

Motor vehicle pollution; Monocyclic aromatic hydrocarbon; Ambient air; Activated charcoal sampling **169**, 17

Motor vehicle traffic; Epidemiology; Air pollution; Dispersion model; Exposure index **169**, 63

Motor vehicle traffic; Pollution episodes; Meterological parameters; NO_x; Reduction in road traffic **169**, 53

Motor vehicles; Emission inventories; Traffic emissions; Spatial and temporal allocation **169**, 231

Motorway; Nitric oxides; Turbulence fluctuations; Ambient ozone; Neutral boundary layer; Reaction rates **169**, 83

Neutral boundary layer; Nitric oxides; Turbulence fluctuations; Ambient ozone; Reaction rates; Motorway **169**, 83

Nitric oxides; Turbulence fluctuations; Ambient ozone; Neutral boundary layer; Reaction rates; Motorway **169**, 83

Nitrogen dioxide; Air pollution monitoring; Inner city; Street canyon; North Rhine-Westphalia; Benzeue; Soot **169**, 7

NO_x; Africa; Tropical cities; Air pollution; High traffic density; Vehicles; CO; Hydrocarbons; Particulate matter **169**, 25

NO_x; Pollution episodes; Motor vehicle traffic; Meterological parameters; Reduction in road traffic **169**, 53

NO_x; Road traffic; Emission factors; Light duty vehicles; Tunnel; CO; t-HC; Hydrocarbons **169**, 141

Noise pollution; Road traffic pollution; Air pollution, vehicle-derived; Vehicle emissions **169**, 75

Non-catalyst cars; Vehicle pollutant emissions; Chassis dynamometer data; Catalyst cars **169**, 157

North Rhine-Westphalia; Air pollution monitoring; Inner city; Street canyon; Nitrogen dioxide; Benzeue; Soot **169**, 7

Odours; Air pollution; Road traffic; Respiratory illness; Behaviour; Land use **169**, 71

Off-road vehicles; Mobile machinery; On-road vehicles; Emission factors; Emissions into air; Legislation **169**, 249

On-road vehicles; Off-road vehicles; Mobile machinery; Emission factors; Emissions into air; Legislation **169**, 249

Particulate matter; Africa; Tropical cities; Air pollution; High traffic density; Vehicles; CO; NO_x; Hydrocarbons **169**, 25

Passenger car; Cold start; Emission; Engine temperature; Pollutant **169**, 185

Petrol passenger car; Driving patterns; Emissions; Speed fluctuations; Catalytic convertor **169**, 129

Petrol-driven car; Cold vehicles; Catalytic convertor; Emissions **169**, 113

Petrol-powered passenger cars; Driving patterns; Cold start emissions; Travel speed; Road type; Catalytic convertors **169**, 123

Piombino; Air pollutant emissions; Maritime traffic; Venice; Fuel consumption; Gross tonnage **169**, 257

Pollutant; Passenger car; Cold start; Emission; Engine temperature **169**, 185

Pollution episodes; Motor vehicle traffic; Meterological parameters; NO_x; Reduction in road traffic **169**, 53

Population exposure; Road traffic pollution; Extra-urban condition; Volatile organic compound; Cryofocussing **169**, 33

Reaction rates; Nitric oxides; Turbulence fluctuations; Ambient ozone; Neutral boundary layer; Motorway **169**, 83

Reduction in road traffic; Pollution episodes; Motor vehicle traffic; Meterological parameters; NO_x **169**, 53

Respiratory illness; Air pollution; Road traffic; Odours; Behaviour; Land use **169**, 71

Road traffic; Air pollution; Odours; Respiratory illness; Behaviour; Land use **169**, 71

Road traffic; Emission factors; Light duty vehicles; Tunnel; NO_x; CO; t-HC; Hydrocarbons **169**, 141

Road traffic assignment model; Air pollution; Transport policy; Air pollution dispersion model; Exhaust emissions; Chester, UK **169**, 265

Road traffic pollution; Air pollution, vehicle-derived; Vehicle emissions; Noise pollution **169**, 75

Road traffic pollution; Extra-urban condition; Volatile organic compound; Cryofocussing; Population exposure **169**, 33

Road type; Driving patterns; Cold start emissions; Travel speed; Petrol-powered passenger cars; Catalytic convertors **169**, 123

Russia; Traffic emissions; Baltic states; Transport network; Vehicle stock **169**, 219

Sanitation plan; Air pollution; Motor vehicle **169**, 45

SIVA model; Unit emissions; Duty vehicles **169**, 205

Solution; Transport; Air pollution; Emission; Transport mode **169**, 1

Soot; Air pollution monitoring; Inner city; Street canyon; North Rhine-Westphalia; Nitrogen dioxide; Benzeue **169**, 7

Spatial and temporal allocation; Emission inventories; Motor vehicles; Traffic emissions **169**, 231

Speed fluctuations; Driving patterns; Petrol passenger car; Emissions; Catalytic convertor **169**, 129

Statistics; Heavy traffic; Diesel; Vehicle; Weight; Horsepower; W.I.M. (weigh-in-motion) **169**, 103

Street canyon; Air pollution monitoring; Inner city; North Rhine-Westphalia; Nitrogen dioxide; Benzeue; Soot **169**, 7

t-HC; Road traffic; Emission factors; Light duty vehicles; Tunnel; NO_x; CO; Hydrocarbons **169**, 141

Traffic emissions; Emission inventories; Motor vehicles; Spatial and temporal allocation **169**, 231

Traffic emissions; Russia; Baltic states; Transport network; Vehicle stock **169**, 219

Transport; Air pollution; Emission; Solution; Transport mode **169**, 1

Transport mode; Transport; Air pollution; Emission; Solution **169**, 1

Transport network; Traffic emissions; Russia; Baltic states; Vehicle stock **169**, 219

Transport policy; Air pollution; Road traffic assignment model; Air pollution dispersion model; Exhaust emissions; Chester, UK **169**, 265

Travel speed; Driving patterns; Cold start emissions; Road type; Petrol-powered passenger cars; Catalytic convertors **169**, 123

Tropical cities; Africa; Air pollution; High traffic density; Vehicles; CO; NO_x; Hydrocarbons; Particulate matter **169**, 25

Tunnel; Road traffic; Emission factors; Light duty vehicles; NO_x; CO; t-HC; Hydrocarbons **169**, 141

Turbulence fluctuations; Nitric oxides; Ambient ozone; Neutral boundary layer; Reaction rates; Motorway **169**, 83

Unit emissions; SIVA model; Duty vehicles **169**, 205

Urban environment; Hot passenger car emission; Modelling; Instantaneous speed and acceleration **169**, 167

Urban intersections; Dispersion modeling; Vehicular pollutants **169**, 93

Vehicle; Heavy traffic; Diesel; Statistics; Weight; Horsepower; W.I.M. (weigh-in-motion) **169**, 103

Vehicle emissions; Road traffic pollution; Air pollution, vehicle-derived; Noise pollution **169**, 75

Vehicle emissions; Volatile organic compounds; Fuel composition; Gasoline; Indoor/outdoor air **169**, 149

Vehicle pollutant emissions; Chassis dynamometer data; Catalyst cars; Non-catalyst cars **169**, 157

Vehicle stock; Traffic emissions; Russia; Baltic states; Transport network **169**, 219

Vehicles; Africa; Tropical cities; Air pollution; High traffic density; CO; NO_x; Hydrocarbons; Particulate matter **169**, 25

Vehicular pollutants; Dispersion modeling; Urban intersections **169**, 93

Venice; Air pollutant emissions; Maritime traffic; Piombino; Fuel consumption; Gross tonnage **169**, 257

Volatile organic compound; Road traffic pollution; Extra-urban condition; Cryofocussing; Population exposure **169**, 33

Volatile organic compounds; Fuel composition; Gasoline; Vehicle emissions; Indoor/outdoor air **169**, 149

W.I.M. (weigh-in-motion); Heavy traffic; Diesel; Vehicle; Statistics; Weight; Horsepower **169**, 103

Weight; Heavy traffic; Diesel; Vehicle; Statistics; Horsepower; W.I.M. (weigh-in-motion) **169**, 103
